Chamber Objectives:

1. Directly representing its members' interests in governmental and legislative bodies, as well as other local and international associations.
2. Participating in developing policies that result in investment and business environments conducive to rapid growth of the industry.
3. Cooperation in Total Quality applications and support of Research Programs.
4. Coordinating and promoting technical training to enhance productivity of human resources.
5. Contributing to the development of Egyptian labor ability.
6. Supporting small and medium-sized enterprises, and promoting a liberal market environment that ensures free competition to develop this vital sector for the future of the Egyptian economy development.
7. Improving the quality of life by encouraging members to participate in community development on environmental and social issues and promote "performance of excellence".
8. Sharing and participating in committees activities and regional, local and international conferences that are interested in industrial development.
9. Supporting increasing local content in industrial products.
10. Integration of production potential between manufacturing entities.
11. Contributing to the development of Egyptian industry by adopting new technology and international quality standards.
12. Provide its members with the tools and knowledge to compete in the global market place and participating in international fairs.

TRADE SHOW ORGANISING COMPANY

Country Club adv. & promotions Inception

Inception

Country Club ADV. & promotion was founded May 2002. It came across as the first company that specializes in direct contact promotion in Sudan where we developed few promotional campaigns following the technique of direct contact between the service provider and consumers using our promotional specialists as a contact medium. Our specialist attend an intense training program developed by Country club.

Print Job department

In the same year 2002 Country Club developed the Print Job department that included printing of all types of brochures and posters and other advertising materials.

Some of our clients:

- Sudan Airways - boarding passes
- Bank of Khartoum - stickers
- Ahfad University - Brochures, books, folders
- IRC Organization - Plastic ID Cards
- Sudan Piles for Roads and Bridges - All kinds of print
- Africa Medical Company - Brochures, gift items
- Ibaa Medical Co. - Company profile

Country Club used to execute all print jobs in Syria and UAE. In the year 2006 Country Club established Banona Business Center where all print jobs and advertising were executed in the house using top of the line equipment, this step has cut down the outflow of hard currency.

Exhibitions Organizing

Following the philosophy of Direct contact marketing, the essence of Country Club inception, we entered the exhibitions field which is direct marketing at its best where consumers meet directly with manufacturers and distributors of goods and services.

We started our exhibition activities by organizing the first Real Estate. Exhibition July 2007 which was a great success that motivated us to create and realize the First Beauty Expo in Nov 2007.

Then we organised real estate exhibition for 3 consecutive terms and two more as part of Cityscape Abudhabi and Jeddah 2009.

We have a concrete relationship with the Egyptian Chamber of Engineering Industries since 2008 and this trade show will be our first in Kenya continuing serial success with the chamber that started in Sudan.
